Dear Mr. Bokhoff:

Thank you for your letter of February 24 plus the helpful enclosures, which I have just received. Those enclosures prompt additional requests.

1. CD 899, which you sent, pertains to a strip of wood removed from the sixth floor window of the Depository and tested for fingerprints. However, CD 899 contains no information revealing the results of the fingerprint examinations, which the FBI conducted, particularly prints of Lee Harvey Oswald. Please send me any information you have as to the results of these examinations.
2. CD 899 states that related information may be found at page 131 of the 11/30/63 report of SA Robert Gemberling and page 369 of the 12/10/63 report of Gemberling. Please send me a copy of each of these pages. (I do not know the Document number.)
3. The documents you sent me from the "MP" file relating to the analysis of a possible recording of the assassination shots implies that other such documents must exist.
Mr. Specter's 6/29/64 memorandum refers to Mr. Hoover's letter of 6/10/64 by which the tape "Four Days that Shocked the World" was sent to the Commission. Please send me a copy of that letter.
Mr. Kersta's 7/17/64 letter to Mr. Rankin refers to figures 4A and 4B. Please send me copies of these figures plus any others which are related or which accompanied Mr. Kersta's letter.
Do you have any documents relating to the return of this tape to Olmsted Sound Studios, from which it originated? Also, if the Commission kept the tape or a copy of it, please tell me how I can obtain a copy, and at what price.
Also, is there any record of any investigation conducted as to whether this tape was actually made during the assassination?
4. Lillian Castellano wrote the Warren Commission about the Governor's wounds, enclosing a clipping from the Los Angeles Times of 11/28/63 which quotes the Governor. Please send me a copy of that clipping.

I assume my account is low, so I will send a check shortly.

Sincerely,

Howard Roffman
